## **Report Fields**

---

### **Project Name\***

Name of Project

Acknowledging Student Achievements through Creative Displays

### **Amount Requested**

Amount Requested

\$2,075.00

### **Grade Level**

Program Area of Request

High School (9-12)

### **Primary Subject Area**

Please choose the primary subject area.

Other

### **School**

Please select your school.

Skyview High School

### **Applicants\***

Please list the educators collaborating on this grant.

Lizbeth Barnea, Librarian  
Diana Mysse, Art Teacher  
Shaye Skovgaard, Family Consumer Science Teacher  
Clint Valandra, Native American Tutor

### **Number of Students Served**

Please enter the number of students that will be served by this grant.

1525

### **Project Cost**

What is the total cost of your project?

2,075.00

## Statement of Need

Please describe the need for this project. For example, how will this project impact student learning?

Display and exhibit resources at Skyview High School are limited and need to be augmented and enhanced.

Skyview students produce great work in their classes and extra-curricular activities but their fellow students and others might never be aware of it unless they happen to be in that particular classroom or program. Having an exhibit area all students can easily visit would help improve this situation.

The Skyview library is accessible, spacious, and beautiful. Hundreds of Skyview students spend time in the library each week during class time and before and after school. The area near the entry, where the student group Family, Career Community Leaders of America (FCCLA) operates a coffee cart, also could serve very effectively as display space providing it has the proper materials and equipment for exhibit viewing.

## Primary Goal

Please describe the primary goal of the project and how it blends with School District 2 goals and curriculum.

This project will enhance the means to celebrate student achievements at Skyview High School.

It will provide ongoing opportunities for Skyview students, staff, and faculty to become aware of, recognize, and acknowledge various art works and objects, reports, CAD drawings, dress designs, and other finished projects created by fellow Skyview students, by presenting students' work using a selection of display apparatus to exhibit objects professionally and attractively.

## Project Description

Briefly identify the major activities and materials involved in your project.

Displays housed in the library will allow student-produced work to be widely viewed. Projects such as illustrated reports, artwork and crafts, student-sewn articles of clothing, or architectural drawings could be hung from panels. The Spring Art Show, cultural exhibits of the All Nations Club, "Read" posters featuring Skyview people, a sample of Falconwear, a selection of theater and musical production costumes, or a collection of news articles about Skyview are only a few of the activities that could be displayed and celebrated in this space.

Materials for this project will allow flexibility in arrangement and be portable and easy to set up and take down. The equipment will be available for use by all departments at Skyview as well as in the library. Scheduling and storage will be coordinated by library staff.

A system of three mesh display panels will be purchased for lighter-weight objects.

Metal strap hangers will be purchased for the solid panels Skyview already has. These old panels are heavy and bulky, but the new hangers will allow us to use them to hang items weighing up to 50 pounds.

A presentation easel will be handy for small displays and announcements.

Male and female dress forms and mannequin heads and feet will enable the display of clothing, masks, headwear, and footwear.

## Professional Development

If your project includes professional development how will it improve student performance?

Not applicable.

## Project Timeline

When will you implement your project?

The items necessary to initiate this project have been identified and listed. If funding is approved, they will be ordered promptly and used throughout the school year.

## Plan for Evaluation

How will you evaluate student outcomes for your project?

Usage statistics  
Scheduling records  
Visitors' register and comments

## Project Budget

Please explain how the funds from this grant will be spent to support your project goal. You can either type or upload a project budget to show how funds will be used. Please identify other funding sources if applicable.

grant appl tables-2.docx

Funds granted for this project will be used to purchase the equipment listed (file attached) and pay shipping charges.

## Supervisor Approval\*

I have received approval from my supervisor to apply for this grant.

yes

## Attachment 1

Please attach any photos, pages from catalogs, or other documents below. This is completely optional.

## FreeStanding MeshPanel Display Walls

10x7 FreeStanding MeshPanel

\$330.00

[Product Information](#)

4x7 FreeStanding MeshPanel

\$240.00

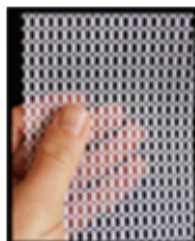

[Product Information](#)

5x7 FreeStanding MeshPanel

\$245.00

[Product Information](#)

The most versatile and simple display solution for your classroom, exhibit hall, science fair or hallway display. FreeStanding MeshPanels are easy to set up and easy to move for use in multiple settings. The steel framework makes them student-tough while the polyester mesh keeps the entire unit lightweight. Best of all, they break down quickly and roll up for compact storage!

- Polyester Mesh is lightweight and certified flame resistant
- Art work can be hung on either or both sides of panel for maximum display space
- **Choose:** Footplate -or- lockable WheelSet for added mobility
- Steel Frame clicks together for quick set-up
- 7 foot height for eye-level viewing, multiple widths available
- Frame breaks down to 5 foot lengths, panel rolls up for compact storage

WheelSet

FootPlate

## Hanger Kit

### \$15

The Hanger Kit is 5/8" wide and 44" long. It is broken into 3 separate pieces that you place together to achieve the full length. Each piece has 6 holes, which you place S hooks through, and a "J" hook at the bottom of it to hook on the hanger extensions. This will enable you to hang heavy pieces on the lower sections of your panels. The Hanger Kit holds up to 50 lbs per S Hook.

#### Hanger Kit – \$15

includes:

Anchor Hanger (14") – 1

Hanger Extensions (15" ea) – 2

S Hooks – 5

If you only hang large heavy pieces towards the top of your panel you can get the anchor hanger alone. If you later decide you want extensions, they can be purchased separately.

Anchor Hangers – \$6 ea

Hanger Extensions – \$5 ea
