20

Project Cost
What is the total cost of your project?

399.00

Statement of Need
Please describe the need for this project. For example, how will this project impact student learning?

I am asking for an iPad2 for my 2nd grade classroom.
Using an iPad2 to enhance student learning will help strengthen student skills in the classroom. An iPad2 would be a very motivating teaching tool for my students.

I will use purposeful educational apps that help reinforce and enrich skills previously taught in the classroom.

The iPad2 will benefit all learners in the classroom for years to come.

Primary Goal

Please describe the primary goal of the project and how it blends with School District 2 goals and curriculum.

With the purchase of an iPad2, I will be able to reinforce and strengthen all subject areas in the classroom. This will also help provide differentiation in instruction. Students begin their education at all different backgrounds and learning abilities. Struggling readers will benefit greatly using this tool to strengthen skills not yet mastered.

These apps will provide skills that directly align with School District 2 goals.

Project Description

Briefly identify the major activities and materials involved in your project.

I will find and download purposeful apps for students to practice various skills to reinforce the skills taught in the classroom.

I will explore apps that will support our standards and align with our district goals. For example, I will try to find apps that will directly help support our Lead 21 reading program. Within each unit's theme, I will try and find purposeful apps that will help students explore our Theme Question.

Another example is to help with vocabulary acquisition. Standard, Literacy.L.2.4 Determining or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 2 reading and content. There are various word games to practice these skills.

Professional Development

If your project includes professional development how will it improve student performance?

Project Timeline

When will you implement your project?

We will start using the iPad2 within the first few weeks of school. It will be important to talk about care and use of the iPad2. Students will learn appropriate use of the iPad2 and exactly how we will use it in the classroom.

As skills are introduced, I will present apps that directly align with those skills taught and students will practice the skills on the iPad2.

As the year progresses, I will continue to introduce new apps this same way.

Plan for Evaluation

How will you evaluate student outcomes for your project?

By using this technology, student performance will improve. They will be more proficient in the academic areas practiced. STUDENTS WILL APP HAPPY because of this new technology.

Project Budget

Please explain how the funds from this grant will be spent to support your project goal. You can either type or upload a project budget to show how funds will be used. Please identify other funding sources if applicable.

File Troubleshooting

Files not included will be available online when viewing the submission or request unless the file type is not compatible with software available on your computer. To view the file online, open the appropriate application or request and click on the file name link. The file will also be able to be printed separately from your computer.

Files unable to be included in the packets can affect the ease the packet may be read by the staff and evaluators at the grant maker. Please take a moment to read the common causes for files not converting and, if possible, resolve this issue.

Please note: If you have already submitted the form, you will need to contact the grant maker to request they return it to draft form for you to be able to make changes.

Common issues:
- The file type uploaded is not supported in print packets.
  - Supported file types are:
    - PDF files (Adobe Acrobat)
    - Common image formats (JPEG, GIF, PNG)
    - Microsoft Office formats (Word, Excel)
    - Text files (.txt)
    - Comma Separated Value files (.csv)

  If you are using an unusual file type, please see if a more standard file format may be used. Often unusual file formats will not be able to opened or read by the staff or evaluators of the organization you are applying to for funds.

- The file caused an error while being converted to PDF.
  - The file path is too long or contains special characters such as (%&^*()@#$!)
    - Example: c:/documents/foundant/marketing/spring2012/programs/events/walkathon2012.doc
      c:/documents/foundant/walkathon@mall.doc
  - The most common cause for errors is due to the document being password protected

  Please check your file to make sure password protection is turned off in the document. If your file name is too long or contains special characters, try saving the file to your desktop, removing any special characters and uploading the file again from your desktop to the application.

- A virus was detected in the file so it was not uploaded to the system
